

Kangen Water Project

“a recession and depression proof project”

Below is a review of what we discuss during a presentation on our **"Kangen Water Project"** a recession & depression proof project.

Here are the facts:

Here's a company, Enagic, Inc., that has traveled the world wide looking at the selected places where water is the best you can get and people flock to these places daily. **Why?**

You would be surprised to learn, that "Water is the single most important ingredient for life!" This is a fact and it is undisputed.

Because the water in these selected places called “Blue Zones” has properties that you will not find in the water you drink from municipal water districts, well water, river water, soft water units, distilled water units, reverse osmosis units, and the varied kinds of bottled water from supposedly water heads, springs, etc. in the commercial world.

Enagic has spent over 35 years researching water from select places like Lourdes, France; Nordeau, Germany; Tlcaote, Mexico; New Delhi, India (the Ganges River out of the mountains from New Delhi); and other select areas around the world. This water has high pH; ORP about -700 mV; and water molecules seven (7) times smaller than any other water. Their first device made water just like the water in these places and was used in the agriculture and hospital business. Now since the beginning of the 21st Century, Enagic makes a unit for restaurants and home use that also makes water with the same properties as found in select places around the world. So what does this mean?

It means that the properties of this water, called by Enagic, Inc. as **"Kangen Water."** "Kangen in Japanese means back to the origin." These units are now made by smaller and can be used in the home and small businesses. These water properties are critical to extending life and leading

a healthy life. **It is just water.** But the “**Kangen Water**” gives your body the ability to return to the origin of what it does best, cleanse it.

The average life expectancy in these select areas where the water is better than other areas are much greater. They live longer and they are healthier. Better health is attributed to better water.

Here are the properties of Kangen Water:

1. High pH about 9.5. Reduces the acidity in your body. When you are born, your body is alkaline. When you die it is acidic. Is this a clue or what? The alkaline pH of 9.5 creates a healthy environment in your body, providing the right atmosphere for healing and maintaining great health.
2. Oxidation Reduction Potential of minus (-700mV) 700 millivolts which removes those toxic properties in your body. Oxidation Reduction Potential is like eating dark green vegetables. A negative ORP of about -700 mV pulls contaminants away, which is also known as antioxidation. Most other water has a range of about plus (+300 mV) 300 mV and there is very little antioxidation effect.
3. Smaller Water Molecule Clusters that organize and reduce the water molecules into small clusters of 5-8 molecules per cluster. This allows water to flow in and out of your cell membranes faster and more efficiently. This allows nutrients to be carried into your cells for maximum absorption and hydration. And, contaminants can then be carried out of your body faster.

Kangen Water lets your body do what it does best, cleanse all the organs.

To the untrained eye, do you know if you are toxic? Do you think you need to see a doctor? Take this simple quiz and find out:

1. Are you under a doctor's care for prescriptions? Do you use over the counter drugs? Are any of these used on a regular basis?
2. Do you drink more than two alcoholic beverages per day?

3. Are you getting sick more and more taking time off of work or just staying home?
4. Have you had nausea, bad breath, foul-smelling stools, a bloated feeling, or intolerance to fatty or starchy foods?
5. Are you subject to irritability, mood swings, anxiety, depression, poor concentration, a spacey feeling, or restlessness?
6. Are you lethargic, have joint pains, muscle aches, fatigue, or just plain weakness?
7. Do you suffer from fibromyalgia, chronic fatigue syndrome, cancer, or an autoimmune disease?
8. Do you have acne, eczema, hives, or unexplained itching?
9. Do you have negative reactions to monosodium, glutamate, (MSG), foods containing sulfites, such as wine and dried fruit, salad bar odors, beverages that contain caffeine, or diet sodas and soda pop?
10. Do you have sensitivities to chemicals, car fumes, odors, perfumes, or fragrances?
11. Do you feel gassy or bloated?

If you answered yes to any of these questions you are basically toxic and acidic. You need to go to the below web site and click on the bottom where it talks about toxicity and acidity. **www.doyoudrinkwater.com**

Kangen Water lets your body do what it does best, cleanse all the organs.

The economics of the "**Kangen Water Generator**" are simple. You know that you pay about 50 cents (with deposits and CRV fees) to greater than a dollar or two or more for bottled water in sizes of about 500 ml (16 ounces). The average consumption of water is about 8-10 bottles per day. If you are not drinking this amount, but other liquids, and then some water to add to other drinks, you may not be as healthy as you could be. It is a fact that all medical problems stem from being too acidic and toxic. Water flushes the acidic and toxic properties from your body. But after drinking a bottle or so, you become very full and do not want any more water.

The Kangen Water Generator with molecules seven times smaller than other water does not make you feel full of water. It hydrates your brain and eyes in less than 60 seconds and your entire body in a few minutes.

Economically at about 1 dollar a bottle, you spend \$3650 dollar per year per person. I know that some people spend more and some spend less. The Kangen Water Generator makes pristine healthy water for about 7 cents per 500 ml (16 ounces). Using a dollar as the base for this economical analysis that means you are saving about 93 cents per bottle. Of course, if you are drinking the cut rate water at some other lower price, then you still are saving, just not quite the same amount. And if you do not drink enough water per day, well you know how you feel, and you know how your body functions. If there are two people per home, then it would double the cost to buy bottled water. With a family of four, drinking the correct amount of water per day to stay healthy, well you add it up. It is huge savings to have a Kangen Water Generator at home or in the office.

And if you knew what was in bottled water, well water, city water, filtered water, soft water, and reverse osmosis water, you would NOT drink it. Believe me I know.

So the savings is going to be considerable when you own a Kangen Water Generator. Can you afford the Kangen Water Generator? Yes, yes, yes. If you have a business then you can double your annual revenue with the Kangen Water Generator. Once people try the water they want to know where they can get one. Once they figure the cost of bottled water and how bad it is for your body, they come to the conclusion that the "Kangen Water Generator" is the most healthy and economical method to drinking water.

"Water is the single most important ingredient for life!" This is a fact and it is undisputed.

Plus, the company, Enagic, pays you a commission on all referrals. This is where you can start to earn added income for a very little cost and drink the water without drinking your profits. What a way to getting healthy and making new income on top of it. If you are making less than \$100,000 per year, then you surely will double your gross income in less than one year. Well, in one year you can be making \$200,000 part time by just referring people to our main web site: www.doyoudrinkwater.com

You have to take a perspective on this "Kangen Water Project." If you are so healthy and wealthy, and you do not want to change the water you are drinking - - - for whatever reason, then refer this entire document to some other person that is not as fortunate as yourself. And, they will thank you.

Make sure it is perfectly clear that the competitors want you to think that their machine is the same as "Enagic's Kangen Water Generator." This is a half-truth. All of the competitors machines have some of the same properties, but not all, as "Enagic's Sunus Kangen Water Generator" which is over 5 years old. Enagic's current water generator is far more advanced than the competition that the ionic platinum plates are many times larger than the competition making the properties of the "Kangen Water" unparalleled in the industry. There is not any machine on the market that is accredited as a "Medical Device" by the Ministry of Health and Labor in

Japan. This is the same kind approval as those medical devices in the USA approved by the FDA.

"It is not what people do not know. It is what people know that just ain't so!" - Will Rogers.

Explore, Dream, Discover...

Twenty years from now you will be more disappointed by the things you didn't do than by the things you did do. So throw off the bowlines.

Sail away from the safe harbor.

Catch the trade winds in your sails.

Explore. Dream. Discover.

- Mark Twain

Remember, the "Kangen Water Project" is recession and depression proof. Everyone needs and drinks water. People will thank you for introducing the "Kangen Water Project" to them.

And, the numbers are really exciting for any kind of recession and depression proof business. Dealing with numerology, get one person to do what you do, and only one person per month, and at the end of one year, just 12 months you will have 4,096 people doing the same thing.

In the Kangen Water Project, if you did only 1/4 of this, then that is equivalent to over \$1.8 million dollars per year gross income. That is what you get for drinking Kangen Water. But more importantly, sharing the water with those that you know need healthy water, will result in a BIG THANK YOU. In what business do you get people thanking you for introducing a new healthy and wealthy way of doing business. NOT MOST OTHER KINDS OF BUSINESS.

"It is not what people do not know. It is what people know that just ain't so!" - Will Rogers.

You would be surprised to learn, that "Water is the single most important ingredient for life!" This is a fact and it is undisputed.

Sincerely,
Patrick Tarzian
