Imagine a sustainable business that increases your income, reduces your financial and health risk, and reduces your costs. That is what is happening in our Kangen Water Project. A whole new way of doing business. Changes that you need to make. No selling. No media stuff to buy. No up front fees.

Kangen is a Japanese word best translated into English as "return to origin", which means several things when used to describe water. First, it describes water returned to the state in which water was often found in nature before the earth became polluted. Second, it implies that it will help to return your body to its original condition when you were young - including all of the organs and skin. It has a few other implied meanings that you will learn about in the videos. Please ask for our DVD's. There are several on the benefits of Kangen Water.

No EXPERIENCE NECESSARY.

A new commission program based on direct and indirect accounts. A competitive advantage with a company that has 34 years in a brick and mortar business. Where your part includes giving Kangen Water to anyone along with a DVD and people learn about Going Green, Saving Money by reducing water costs, and the most important issue, you help people become healthier. A methodology for reducing financial and health risk. And, you get a big thank you in return for helping people Go Green, getting healthier and invoking a sustainable business income for yourself and others. The purest form of reaching the advantage and making everyone's job a new sustainable income. You will reach thousands and never know whom you touch. And, you receive checks in the mail and never know where they come from. WOW.

There are proposals in the government right now to add millions of "Green Collar Jobs." What does this mean?

It means that Americans are talking about going GREEN. Helping the environment globally, to be a better place to live. This encompasses many parts of business, government, our homes and lives globally. The benefits and by products are huge. Just think about removing plastic water bottles from your life and the landfills. Using appropriate water containers that do not leach harmful plastic properties into your drinking water. Learn about the quality of the plastic bottle containers and what to know about the ratings of these water bottle containers.

Do not discount yourself. If you are like me, you probably consider yourself a nobody. Even though we think we are nobody, most people really are connected with somebody at the top. In fact, if you study the rule of 6 degrees of separation, you are connected to the leader of your country or somebody very well known. Don't believe this, try it. Just ask the people you know whom they know, and whom they know, and whom they know, and whom they know, and finally whom they know. You will find that there is someone very important that you are connected with. And really you are somebody even if you think you are nobody.

Since this is true, what if you told people about the "Kangen Water" project and were able to receive payments for each person connected to the "Kangen Water" that has a Kangen Water Generator, SD501?

You would find that you have helped hundreds and thousands of people with helping the world for a better GREEN. If you told one person per month and each of those you told one person about the “Kangen Water Project,” then that would equal over 4,000 people in just one year. This is a fact and it is undisputed.

You know about royalties that movie stars, music producers, book writers, software engineers, and others that create products, well they receive a residual on all of those products that are sold. Then in the onset of the product when it is first released, the creator receives a signing fee. WOW. Our “Kangen Water Project” works the same way. You receive a direct commission on all products that are acquired by new accounts. Then after the initial product you receive residual commissions forever. And, there are bonus commissions paid after so many new accounts are assigned. You do not have to be a movie star to understand this. It is quite simple. Just give the DVD’s away along with the “Kangen Water” and new accounts are processed via the company. Enagic USA, Inc. has been in business for over 35 years. As of the end of 2007 they have delivered over 500,000 “Kangen Water Generator” units. This is not even the tip of the iceberg.

Remember the cliché about the “Wars of Colonial Expansion?” Of course you do. “First one in to get the job, gets the money.” That is where we started in the colonial days. Very simple.

It is absolutely amazing...I always restate the cliché from Will Rogers: "It is not what people do not know. It is what people know that just ain't so!"

Will Rogers also said, "It is not the return on my investment (ROI) that I am concerned about. It is the return of my money that I worry about."

- Will Rogers.

Recession and downed economy Proof Business - YES...oil by the barrel at its highest, jobless rate greater than 5.5% [job losses in the tens of thousands], gas at the pumps getting close to the European market [over \$5 per gallon], foreclosures at the highest [and you cannot sell your home because of a down market], [even Mr. Ed McMahon may lose his home].

Did you know that many cities process sewer water to tap water for drinking?

Did you know that the cost of bottled water for a family of 4 could be greater than \$6,200 per year?

Did you know that bottled water is for the most part is reverse osmosis water? You might as well just wet yourself. You would get more minerals that way.

Did you know that the "Kangen Water Generator" costs less than 5 cents for a glass of water versus 50 cents to a few dollars for bottled water? And, you are getting the best of the best with "Kangen Water" to start creating a healthy environment for your family and others.

We need REPRESENTATIVES and DISTRIBUTORS....

Our dilemma is about not being able to contact those that we have done business with since the early 1970's do to the fact that there is not enough time to contact each of them either by phone or email. Therefore, those that join our water project as a distributor, we will provide the customer information in the area where you have decided to work. For instance, we just acquired a new account in Chicago, so we gave all the customer information to that new account so they can leverage those that we have done business with already in that telephone area code. Our customer list is over 7,000 corporate companies with at least one contact and many with more than one. This is not cold calling. This is what is called "Customer Service."

You see by selling licenses to companies that purchased the "Private Labeling" of our product for quantities of 1,000 or greater, we were only able to get the users Corporate Name, City, and State/Zip as indicated in the licensing agreement for the application that was sold to the end user. NOW, at this juncture, we want to contact those that have paid \$30k to a couple of hundred thousand for a "Private Labeled" product. As an example; "XYZ Software" [sample name on the application] purchased 5,000 licenses. The software copyright label has our name on it. Only 10% of the "Private Labels" sold to companies that were resellers for our product are still in business. Many resellers start a business and close their doors after 2-3 years. We need people to contact the end user company. This is a warm customer account. They have spent money on products developed and copyrighted by our company. Just talk with the customer, find out how they are doing, and if they want information on our updates and new product.

Mention our newest flagship product; "Kangen Water Generator" for your home or business. You know how to do this. It is just water. People want to get healthy water.

We provide, the following to our Representatives, Free Agents, and Distributors:

- 1. Free Business Cards [single sided] [UV on 4/0 color] [3 1/2 by 2 inches] [14 point card stock C2S] professional grade.

Qty: 1,000; you only pay the processing fee of \$32.00
[Quotes on double sided not much more; additional 1,000 single sided only \$19.00]**
- 2. Your name on "www.doyoudrinkwater.com"
[When prospects go to this web site they get directed to you. Then you contact them].**

<http://www.doyoudrinkwater.com>

Or, you may elect to create your own top level domain, in which case we will build it for your so that you will be successful in your own rights. We charge \$100 per year. And, after earning commissions for one year we give it back to you. It is a financial commitment up front to make sure you are serious about our relationship and wanting to do business.

- 3. Customer list for an area code assigned to you and exclusive to you alone. When any customer in an assigned area code becomes a new account then that account is yours and exclusive to you. You receive all the commissions for the assigned telephone area code.**
- 4. New distributors receive a FREE case of 2-gallon containers for providing FREE water to prospective accounts.**
- 5. A business guarantee that you will receive \$2,000 cash/check or an Enagic Kangen Water Generator model SD501 (valued over \$4,000.00) when your business group exceeds 30 plus new accounts. And, you will at least receive \$160 on each new account in your business group for all new accounts. After 30 plus new accounts in your business group you can receive as much as \$1,500 per account in your business group.**
- 6. A FREE business group portal where you can process prospective information anywhere in the world specifically designed to your Distributor account. See sample portal below. Every 30 days data is returned to you for follow-up. This way you do not have to remember**

anything. NO PAPER to track. You just have to be creative with your accounts. Do this anywhere in the world? Yes even in China.
